by the Consortium of Western LI Sound Coastal Squadrons**

Safe Boating - America's Boating Course

America's Boating Course emphasizes boating safety. Topics covered include: life jackets; fire extinguishers; distress signals; boat operator responsibilities; boating regulations; fueling; boating courtesy; basic rules of navigation; buoys; sound signals; navigation lights, shapes and sounds; boat registration; and environmental considerations. This course exposes the tip of the iceberg of boating knowledge, creating an awareness of the know-how needed to skipper a boat safely and earning the successful student the credentials needed to qualify for the required New York or Connecticut Safe Boating Certificate. The multi-day courses include an introduction to navigation.
